## About myself

I was born in Rome, Italy, in 1976. I **live in Milan**, Italy, with my wife Claudia. I achieved a **BoA in IT Technologies** in Milan and I work since the beginning of the millenium as **developer and analyst of web applications**. My knowledge cover different aspects of the IT (multimedia, web, databases, software engineer, mobile) and I created my experience working with several different kind of customers (fashion, editorial, schools, Public Administration, loyers, artists, ...)

Since the late 2010 I'm working in a **distributed international team** with head quarter in Bruxelles where I also spent **some months** with the team. The experience is giving me a wider vision on how to be more agile.

## Job experiences

2007 to now: **Web Developer and Software Engineer at Euroconsumers Srl**. With task of management and development of the web site of the main consumer's association of Italy: Altroconsumo. Website: <http://www.altroconsumo.it> and other related sites. The technology used was ASP.NET 2.0. Since the late 2010 **I'm working in an international team** on the group website developed in **MVC.NET 3**

2001 to 2007: **Analyst, software developer and IT external consultant in TRE Telecomunicazioni Srl**, Milan. I developed in ASP, PHP, Visual Basic for several kind of customers and several kind of projects on IT, networking, GSM gateways, Web sites, CMS and intranet, Multimedia and animation, and so on and **I was managing customers from the first call to the deliver of the final product**

2001 to 2002: **External consultant to Novaspes Scarl** with task of develop a software to manage the Social Budget in VB6 and of **teaching IT in a prison to prisoners**

2000 - 2001: I was an **operating partner as software developer at Insubria Network Srl**

## Job details

In last years I focused mainly on **Analysis and development of web sites working in quite big teams in a proactive way according to the agile methodology**. In the past years I put hands on development of portals, intranet, budget software, flash applications, on-line catalogs, managing of SMS Gateway, proximity badge, installation, configuration and management of networks with Microsoft Server 2000 and 2003, management of Mail and Web servers, installation and remote management of firewall. Hardware and software support at client's office, teaching of IT.

## IT knowledge

Good knowledge of MacOs and Windows O.S. in all versions, including Windows Server 2000 and 2003, of Microsoft Office applications and of more used office software. Familiar with Hardware support.

**Languages: MVC.NET (C# - razor), ASP.NET (C#),** JavaScript, JQuery, ASP3.0, PHP5, HTML and DHTML, CSS, ActionScript, VB6, VBpA, VBScript, knowledge of C, JAVA and Assembler at degree level

DataBase **MySQL, SQL Server and Access**, good knowledge of **SQL and DB design**

Good knowledge of PhotoShop, Flash and Flex Builder

Knowledge of **networking**, Linux, FreeBSD and related software at degree level

Familiar with main common **CMS** and with the logic at their basis

Experience on the job on **SEO / SEM**

**Ability to evaluate, coordinate, manage and develop complex projects.**

## Course of studies

2009: **BoA in Information Science** at “Università degli studi di Milano”. Thesis about introducing E-commerce in the Public Administration;

1999: attent till the third year of course of Telecommunication’s Engineer at “Politecnico di Milano”;
